

## Practical Aspects in Mixed-Signal ICs

EPFL, LAUSANNE, SWITZERLAND  
AUGUST 26-30, 2019

---

### MONDAY, August 26

---

8:30 - 10:00 am	Trade-off between Analog and Digital - The Impact of Technology Scaling	Jan Rabaey
10:30 - 12:00 am & 1:30 - 5:00 pm	Ultra Low-Power Mixed-Signal Interfaces	Jan Rabaey

---

### TUESDAY, August 27

---

8:30 - 10:00 am	Modeling and Simulation of Mixed-Mode Circuits	Pavan Hanumolu
10:30 - 12:00 am 1:30 - 3:00 pm	Noise Coupling in Mixed-Mode ICs: Mechanisms, Simulation, Measurement	Tim Schmerbeck
3:30 - 5:00 pm	Noise Coupling in Mixed-Mode ICs: Design Strategy/Hardware Example	Tim Schmerbeck

---

### WEDNESDAY, August 28

---

8:30 - 10:00 am	Offset and CMRR: Random and Systematic	Willy Sansen
10:30 - 12:00 am	Fully-Differential Amplifiers	Willy Sansen
1:30 - 5:00 pm	Digitally-Assisted Analog Circuits	Marc Pastre

---

### THURSDAY, August 29

---

8:30 - 10:00 am	Noise Calculation and Simulation in SC & CT Circuits	Christian Enz
10:30 - 12:00 am	Noise and Offset Reduction Techniques	Christian Enz
1:30 - 5:00 pm	Matching Impairments in Mixed-Mode ICs	Herman Casier

---

### FRIDAY, August 30

---

8:30 - 10:00 am	Design for Electrostatic Discharge (ESD) Robustness in Silicon Integrated Circuits	Tim Schmerbeck
10:30 - 12:00 am	Interference Effects: CMRR/PSRR	Michiel Steyaert
1:30 - 3:00 pm	Design for EMC	Michiel Steyaert

---
