

# **MEAD Parking and Check-in Information**

## **Driving and Parking Directions:**

All Mead courses are located on the University of California, Santa Cruz campus. Enter campus through the west entrance at Empire Grade on Heller Drive Follow the **MEAD Course** signs to the Core West Parking Structure. There will also be signs pointing that way from the main entrance at High and Bay Streets.

Attendants will be in the parking structure to offer direction and sell permits. We will have one attendant on the first floor of the structure directing people to go up to the third floor where we will have two attendants selling daily and weekly permits. Daily permits are \$5.50, and only available in the Core West structure on Monday only, additional daily permits must be purchased from the Main Campus entrance Kiosk all other days.

Please note that parking regulations are ENFORCED on campus by the police. MEAD is not responsible for parking tickets received.

Attendants in the parking lot will sell weekly permits. Credit cards WILL NOT BE ACCEPTED, only cash.

- Parking permits for 4 days are \$24
- Parking permits for 5 days are \$27

The parking attendant will be available on Monday, March 22, from 7:00-8:00am. If you arrive after 8:00am, or arrive after Monday, please purchase your parking permit at the Information and Parking Kiosk located at the main campus entrance. At the Core West structure, there are also pay stalls where short term parking tickets can be purchased.

Once you have parked your car, please follow the pedestrian directional signs to the Baskin Engineering Building lobby. It is about a 2-minute walk from the Core West Parking Structure. There you will check-in for your courses.

## **Check-in for MEAD Course Attendees:**

Please check-in Monday, March 22 between 8:00-8:30am. The check-in tables are located in the lobby of the Baskin Engineering Building on the UCSC campus. Please look for directional signs from the Core West Parking Structure. Follow the signs that say **MEAD Course Check-in**.
